

Hidea HD15f Outboard Motor

Hidea HD15F outboard motor is a power engine that can be used on GS430 Inflatable Boat. HD15F is a 15hp 2 stroke outboard motor with 3 gear shift position (Forward, Neutral and Reverse).

HD15F motor can give enough power to speed up the inflatable boat that can be used in rescue operation, fishing leisure or in a humanitarian operation.

Key Features at Glance

- Easy to operate.
- Full throttle range 4500- 5500rpm.
- Heavy duty outboard motor
- 3 Gear shift position (Forward, Neutral and Reverse)
- Can be used on GS528XL Inflatable Boat.
- Fuel Tank(24L), Repair tool kits and Spare parts included.

Technical Data

Model:	HD15F
Max. Output	11kw
Full Throttle	4500 - 5500rpm
Stroke	2
Cylinder	2
Piston Displacement	246cc
Bore and stroke	56 x 50mm
Transom Height	567mm
Dimensions	873 x 332 x 1040mm
Weight	36kg
Ignition System	C.D.I.
Cooling System	Water-cooling
Starting System	Manual
Control System	Tiller Control (F-N-R)
Gear Ratio	27:13
Compression Ratio	6.8:1
Lubrication System	Gasoline and Machine Oil
Lubricant mixture ratio	50:1
Fuel	Unleaded regular gasoline (87 - 91 octane)
Fuel Tank Capacity:	Approx. 24L

*Repair Tool Kits and Spare parts

- Tool bag
- Pliers
- Socket Wrench
- Handle for Socket Wrench
- Philips Screwdriver
- Spark plug
- Shear pin
- Split pin
- Rope
- Fuel Tank (24L)
